HOST ONLY

PUZZLE 1 • HINTS

- Work one card at a time and mark true or false.
- Cards 2 and 4 are not correct.
- Keep the letters on cards 1, 3, and 5.

Answer FIR: Cards 1, 3, and 5 are true; cards 2 and 4 are false. The true-card letters, in card-number order, are F-I-R. Use that material token to open the maker records.

PUZZLE 2 • HINTS

- Apply all three facts: material, ribbon, and arrival time.
- Two records use the right material and ribbon.
- Compare 4:10 and 4:35 with the 4:20 cutoff.

Answer 608: Jun, Lee, and Uma use the required material. Only Jun and Uma also have gold ribbon; of those, only Jun arrived before 4:20. Jun's tag digits read 6-0-8, completing the side mystery.

READ ALOUD • ENDING

The right label returns to Jun's display. The mix-up came from a loose clip, and the makers add stronger clips before opening the doors.
