How the case file works

Four cases, about 15 minutes each.

For a beginner who names notes and is starting to play them. A five-finger position puts one finger on each of five white keys next to each other. Fingers are numbered 1 to 5 from the thumb on both hands. In this book each case states its position, and the finger numbers come from that position.

EACH CASE

The story	Read it aloud together. It says what the detective is looking for.
Learn	The rule for this case, with a picture. Point at it while you read it.
Tasks	Short tasks that use the rule. Each one has a single right answer (except play tasks).
Clue	The last task gives a clue for the final question.

YOU NEED

- A pencil
- A piano or keyboard if you have one, or the paper keyboard near the end
- Four short sittings, one case each

GOOD TO KNOW

- Thumb = 1, pinky = 5, on both hands.
- The fingering here is one common choice for these positions. Teachers and pieces may use other fingerings: follow the teacher or the music.
- Right hand: count up from the thumb. Left hand: count down from the thumb.

NOT A METHOD BOOK

Note-reading practice for beginners, not piano lessons. Note reading and keyboard practice only: no sharps, flats or key signatures.

Case 1: Right Hand, C Position

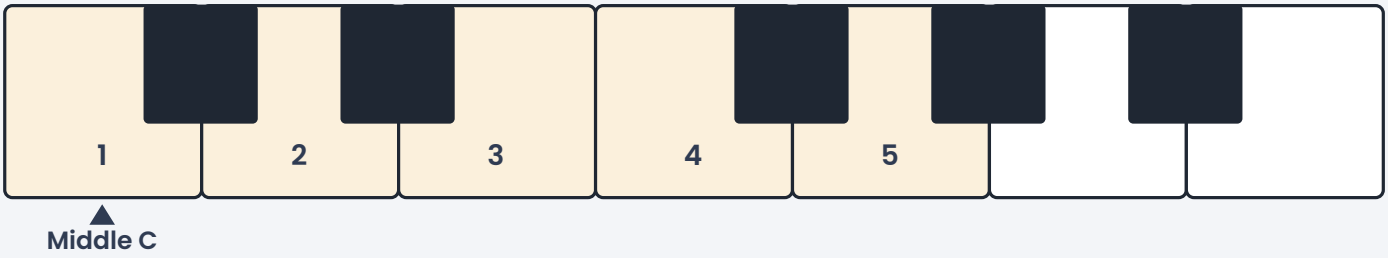

Right thumb on Middle C: fingers 1 to 5 play C, D, E, F, G

THE STORY

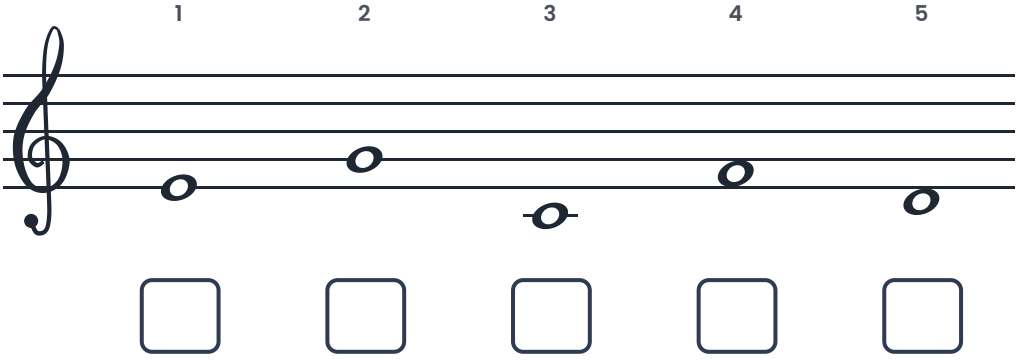

The piano club's new songbook has gone missing before the spring show. The club leader left finger clues on the music stand. Each case gives one letter of where the songbook is.

LEARN

- Right hand in C position: thumb (1) on Middle C.
- Fingers 1, 2, 3, 4, 5 play C, D, E, F, G: one white key each.
- To find a finger, count up from the thumb.

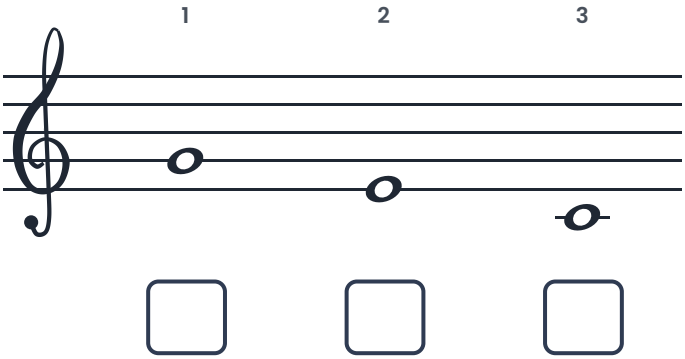

1 Right hand in C position. Which finger plays each note? Write 1 to 5.

Case 1: Right Hand, C Position (continued)

2 Write the letter of each note.

3 Play C, D, E, F, G with fingers 1, 2, 3, 4, 5, then back down. Say the finger numbers as you play.

CLUE 1

The first letter of the hiding place is the letter of note 2 in task 2.

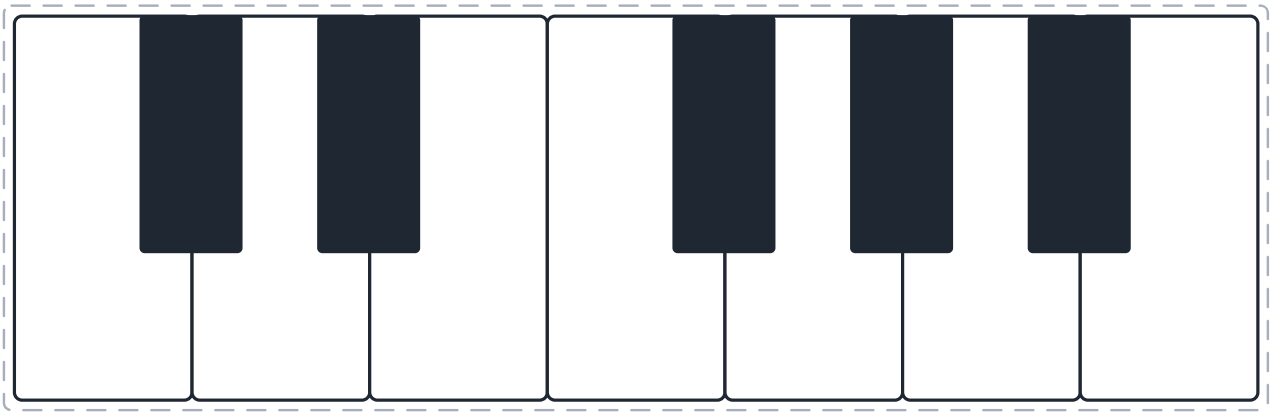

Clue: _____

In the full case file, the clues from every case solve the final question.

Paper keyboard

Cut out the rows and tape them in order, low to high. White keys are about as wide as a real piano's.

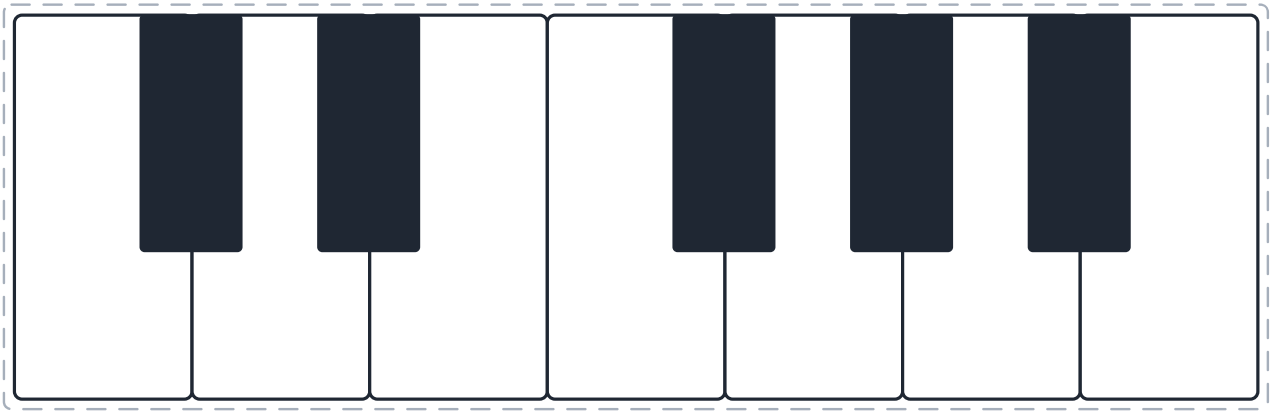

Low

Middle

High

Only Middle C is labeled: finding the other keys is the detective's job. Tape the rows edge to edge (low on the left) to make one long keyboard.

Case 1 answers

Every answer comes with its reason. Read the reasons aloud: they teach.
