BOBOTEMP

Gift Box — Plain Paper

For plain printer paper. Glue the lids shut — paper tucks pop open. Inside: 2.25 × 1.5 × 3.5 in.

- 1 Cut on the dashed lines, then crease every dotted line with a ruler and an empty ballpoint.
- 2 Glue the narrow flap inside the last side panel to make a tube.
- 3 Bottom: fold the two small dust flaps in, then the lid, and glue it shut.
- 4 Fill it, then close the top the same way.

Gift-Card Envelope — holds a gift card, a tag or a coupon (up to 3.5 × 2.4 in)

- 1 Crease the four dotted lines.
- 2 Fold both side flaps in.
- 3 Glue the edges of the bottom flap and press it over the side flaps.
- 4 Slip the gift in; fold the top flap down and seal it with a sticker.
