

Printing and Cutting Guide

One player card, front and back, nine to a Letter sheet

TWO WAYS TO MAKE THE CARDS

Pages 2–3, in BoboCreate

Each window holds a photo frame and each card has text boxes. Replace the camera picture with your photo and type over Player Name, 00, Position and Team Name. Fill nine teammates, or one player nine times.

Pages 4–5, on paper

Print, trim a photo to the window size, glue it in and write the details on the lines.

PRINT

- US Letter paper, Actual size or 100%. Never Fit to page: the cards would shrink and the marks would move.
- Card stock makes sturdy cards if your printer takes it; check its manual. Print one trial sheet on plain paper first.

FRONTS AND BACKS

- Glue (sturdiest): print the fronts and backs on separate sheets, cut both, then glue each back to its front with a glue stick or double-sided tape.
- Two-sided: print the backs on the reverse of the fronts and flip on the long edge. Backs are in mirror order, so each back lands behind its front. Hold the trial sheet up to a window to check.

CUT

- The side marks show the 4 across-cuts and the top and bottom marks show the 4 down-cuts. If your printer leaves off the top and bottom marks, use the card edges.
- Lay a ruler from mark to mark and cut straight across the whole sheet: 8 cuts free 9 cards. A paper trimmer is easiest; an adult handles any craft knife.

PHOTO WINDOWS

CARD OR PAGE	PHOTO WINDOW	MINIMUM PHOTO FOR 300 PPI
Classic Frame player card	2.10 × 2.00 in	630 × 600 pixels

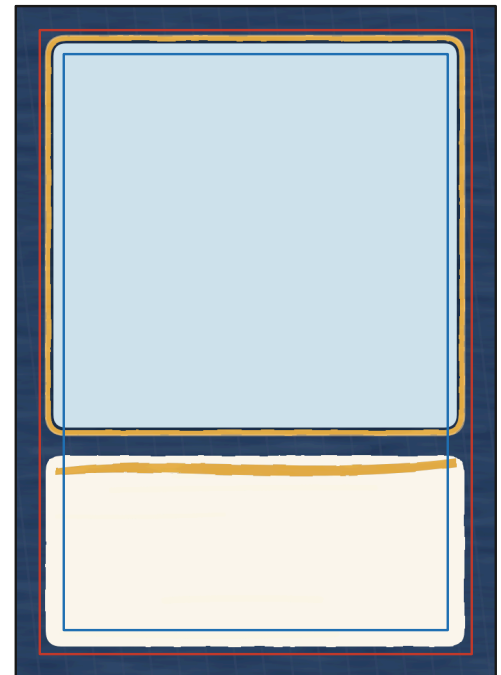

For a sharp print, use a photo with at least the pixels in the table on both sides (300 pixels per inch). A photo of another shape is trimmed to fill the window, so keep faces near the middle.

Each box holds its longest entry on one line: names 16 letters, positions 16, team names 17, seasons 11, jersey numbers 2 digits.

Ask each family before you print or share a child's photo or name.

YOU WILL NEED

- A printer and US Letter paper or card stock
- One photo of each player
- A ruler and scissors, or a paper trimmer
- A glue stick or double-sided tape

- Trim: 2.5 × 3.5 in (63.5 × 88.9 mm)
- Pictures stay 1/8 in inside
- Words stay 1/4 in inside
